Farm and Home Week at O. S. A.

The program for "Farm and Home Week," which begins on June 23rd at the Olds School of Agriculture, has been fully arranged. Each day from Monday to Friday there will be practical lectures, demonstrations and discussions of special interest to farmers and their wives. Many outstanding speakers and agricultural authorities will be present during the week.

Of particular interest are the evening programs, which combine popular lectures on important current subjects with entertainment.

The official opening takes place Monday night when the Hon. William Aberhart, Premier of Alberta, will be the main speaker. The Hon. D. B. MacMillan, Minister of Agriculture, will also take part in the official opening.

On Tuesday night Dean R. Newton, University of Alberta, and W. D. Albright, Superintendent, Dominion Experimental Farm, Beaverlodge, will be the speakers. Dean Newton will discuss "Propaganda," and Mr. Albright will deliver an illustrated talk entitled "Not by Bread Alone."

The guest speaker on Wednesday evening comes from the University of British Columbia, in the person of Dr. J. C. Berry, Assistant Professor, Department of Animal Husbandry. He will discuss "Three Current Problems in Animal Nutrition"—a most important subject under present conditions.

On Thursday evening, The Hon. J. G. Taggart, Chairman of the Canadian Bacon Board, and Dr. L. B. Pett, Professor of Biochemistry, University of Alberta, will be heard. Dr. Pett will speak on "Nutrition and the War," and Mr. Taggart will discuss "Britain's Food Requirements." In view of Canada's position in supplying food to the Empire, these lectures will be of particular importance.

Each evening, besides the lectures, there will be community singing and motion pictures. Some of the pictures to be shown are newly released and deal with various phases of the war. Comic and general interest films are also being supplied.

"Farm and Home Week" is open to everyone. It is free except for lodging, which may be obtained in the modern dormitories at reasonable rates. Visitors are always welcome. Come for the week if you can, and if not, plan to attend for at least a day or two, but in any case, the evening lectures should not be overlooked.

New Minister for Evangelical Church

Rev. A. M. Amacher, who has been appointed pastor of the Zion Evangelical Church, took his first services here on Sunday.

Mr. Amacher is no stranger to Didsbury, as he lived here and received part of his education at Didsbury when his father, Rev. L. P. Amacher, was pastor of the E. V. Church from 1914 to 1918.

The late Mr. Amacher died during the "flu" epidemic in 1918 and was buried in the Didsbury cemetery. The family moved to Hespeler, Ont., and Mr. Amacher continued his education at Galt College Institute and Waterloo College. He studied for the ministry at the North Central College at Naperville, Ill., where he received his B. A. degree.

Entering the ministry in 1930, he served 2 years at Neudorf, Sask., 2 years at Jensen, Sask., and 7 years at Kenaston, Sask., before coming to Didsbury.

WEDDINGS

MACALISTER—BOWMAN

Against a background of rose peonies, white gladioli and ivory tapers, a lovely wedding was solemnized at the Scarbro United Church, Calgary, on Thursday afternoon at 5:30 p.m., when Isabel McNally, eldest daughter of Mr. and Mrs. Harvey M. Bowman of Didsbury, became the bride of Lieut. Fraser Macalister, only son of Mr. Donald Macalister of Calgary. Flight-Lieutenant H. E. D. Ashford officiated, assisted by Rev. J. M. Fawcett of Didsbury. The organist was Mr. T. S. Beresford.

The bride, given in marriage by her father, chose an ashen of roses redingote ensemble of sheer crepe printed in white. She wore a matching straw hat with navy veil, navy accessories and a corsage of white gladioli, centered with Briarcliffe roses and forget-me-nots.

The bridesmaid, Miss Ruth Meadows, wore a frock of azure blue with accessories and a large picture hat of white starched lace. Her corsage was of Ophelia roses.

Mr. Gordon F. Butterwick attended the bridegroom while the ushers were Lieutenant R. L. Coldwell and Lieutenant A. W. Mason.

During the signing of the register the bride's 14-year-old sister, Miss Elizabeth Bowman, sang "At Dawning."

Following the ceremony a reception for immediate relatives and close friends was held at the home of Mr. and Mrs. Donald Macalister.

Mrs. Bowman chose for her daughter's wedding a mauve printed sheer with white accessories. Her corsage was of purple violas in swansons. Mrs. Macalister wore a navy ensemble with a corsage of talisman roses.

Flight-Lieutenant Ashford proposed the toast to the bride.

For the honeymoon trip to the mountains the bride changed to a dress of bluish mauve wool with accessories of navy and carried a top coat of apple green. On their return Mr. and Mrs. Macalister will take up residence at Suite 5, Mount Royal Apartments.

United Church Notes.

This Sunday Anniversary of the Churches will be observed at all points on the Charge. The Minister, Rev. John M. Fawcett will preach the Anniversary Sermon, and a hearty invitation is extended to all friends of the church to attend the services nearest to them.

In connection with the Anniversary the Senior Ladies' Aid will hold a Strawberry Festival on the lawns at the home of Mr. and Mrs. Durant (across from the M. B. C. Church) on Saturday afternoon and evening. If weather is unfavorable for an outside affair, it will be held in the Knox Church basement.

The Annual meeting of the Presbytery Woman's Association of the Red Deer Presbytery of the United Church, was held at Innisfail, Wed.

Awarded Another Victory Pennant.

Didsbury district has been awarded a second pennant by the Victory Loan headquarters for having exceeded their original quota of \$28,000.00 by 25 per cent. The pennant will be hoisted on the flag pole at the school this (Thursday) morning.

The amount raised up to Wednesday noon was \$35,500, but this should be augmented considerably before the week end.

While Southern Alberta has already exceeded its quota, the province as a whole has some ways to go, and further effort is needed to see that Alberta goes over the top.

If you have not yet subscribed or if you can possibly make a further subscription be sure and call at the unit headquarters at C. E. Reiber's office, or at the Royal Bank.

Every dollar that can be raised is needed to "finish the job."

Bridal Showers.

Miss Alma Cunningham was the guest of honor at a linen shower held at the home of Miss Oma Fairfax-Brown on Friday evening.

Miss Cunningham is to be married early next month.

Seventeen young ladies, together with Mrs. Cunningham were present and a very pleasant evening was spent. The hostess served a delicious lunch, after which the guest of honor was presented with many lovely gifts.

In honor of Miss Vera Levagood, a June bride-elect, Mrs. Ed Kluck entertained at a miscellaneous shower on Tuesday afternoon.

A beautiful decorated basket was carried in by little June Klineck and Patsy Rennie, dressed as brides, and the bride-to-be received many beautiful and useful gifts.

The afternoon was spent in work contests, after which the hostess served a lovely lunch to thirty-five guests.

Didsbury Cattle For Fair Circuit

F. W. Leeson and Sons shipped three of their fine Holsteins to Hayes & Co. of Calgary on Friday last.

Hayes Bros. purchased a cow outright and bought half interest in a 2 year old bull and a bull calf. These cattle will be fitted and shown with the Hayes & Co. herd at the Calgary Exhibition, and will then follow the circuit of Western fairs.

Incidentally the 2 year old bull already weighs 1900 lbs.

Mr. Leeson regrets these cattle can not be shown at Didsbury but says he has still a truck load of good cattle to show at the Didsbury Fair.

Local Detachments on Route March

It takes more than sloppy roads to stop the local detachment of the 15th Light Horse and W.S.C. from doing their stuff.

Headed by the Didsbury Carstairs Band, the Alberta Light Horse and Womens Service Corps made a route march on Sunday afternoon in spite of the rain and sloppy streets. They marched around the town for a distance of over two miles and made a very creditable appearance.

Notes From the West

Corporal E. Lowrie spent the week end with his family in the Inverness district.

Mr. and Mrs. H. Sugden of Calgary spent Sunday with Mr. F. Batten.

The Elktion Red Cross group met at the home of Mrs. Campbell on Thursday last and quilt was tied. The next meeting will be held at Mrs. J. Bagshaw's on June 26.

Mr. and Mrs. E. Parker were Calgary visitors last week.

Congratulations to Mr. and Mrs. S. Mayler and Mr. and Mrs. Albert Krebs in each case it's a boy.

Leslie Evans left for Calgary on Tuesday to enter the trades school of the R.C.A.F. Good luck Les.

Poultry Field Day

A field day under the auspices of the poultry branch of the Department of Agriculture will be held at the farm of Henry Fisher, five miles west of Didsbury, on Monday, June 23rd at 1.30.

Speakers from the Provincial Poultry Branch will be present and will discuss various problems in poultry raising. There will be a picnic lunch at the close and ladies are asked to bring sandwiches and cake. Cups should also be brought and coffee will be supplied.

Tennis Notes

There is little to report on the tennis situation, mostly because of the lack of enthusiasm about the courts.

It is to be regretted that many who promised support at the organization of the club, have not played this year despite ideal weather and the fact that the courts are in excellent condition. Unless more interest is shown it will be necessary to abandon the club for operating expenses cannot be met indefinitely without more support.

If you do not wish to see the courts locked up—drop over and try a set—it will do you good.

We are sorry to hear that Mrs. McDougall is a patient in the Didsbury Hospital.

A Greater Incentive

Following the recent declaration by President F. D. Roosevelt of the existence of an unlimited national emergency in the United States one may expect to read of frequent announcements of steps being taken, perhaps almost weekly, to stimulate the dovetailed objectives which inspired this important decision, namely the defence of the Western hemisphere and aid to Britain.

The proclamation of the existence of a state of unlimited national emergency by the chief executive of the great neighboring nation, with its enormous industrial and natural resources and its virile manpower is bound sooner or later to exert a very profound effect upon the course of the war, an effect which probably will not be appreciated to the full until it can be viewed in perspective at a later date. And this prediction can safely be made when one realizes the enormous emergency powers which have been vested in the president by Congress and the depth and breadth of his conviction that the whole resources of the nation must be bent to the task, if democracy is to be saved from pagan Hitlerism and if the existence of civilization on this continent is to be preserved inviolate.

In some quarters disappointment was expressed that President Roosevelt was not more specific in his declaratory statements. Some people would have liked to hear him say that the declaration of the existence of a state of unlimited national emergency meant that he intended to take the necessary steps to bring about abrogation of the Neutrality Act or that his country would furnish American convoys to ensure delivery of war materials on Britain's shores.

All-Embracing

This, however, was not necessary. The president's emphatic declaration that means must and would be devised to ensure that the production of American arsenals, workshops and yards was delivered where it was intended to go was all-embracing and that, in the light of Roosevelt's record since the outbreak of the war should be sufficient assurance that whatever may be necessary to ensure that result will be made operative.

It must also be remembered that no one in the United States knows his people better than F.D.R. He knows just how far he can go without stepping beyond the boundaries of public opinion in his own country. He is evidently more keenly aware of the extent of the peril to the United States than are very many of his people and the primary purpose of his statements was to drive deeply into the public consciousness the growing menace which threatens their liberty, their economic institutions and their spiritual existence. President Roosevelt knows perfectly well that once the people of the United States realize the danger they are in and the very short time they may have in which to prepare to meet it, on both sides of the Atlantic, public sanction will be immediately accorded any and all measures necessary to meet the situation.

When the speech is analyzed in the light of this interpretation of its objective, it can truly be described as an educational effort of the first magnitude and one may expect it to bear fruit in crystallization of public support and approval for far more advanced steps than have been taken to date, both in provision of additional assistance to Britain overseas and all-out preparation for home defence of the Western hemisphere, in consolidation of national unity and in stiffening morale.

To Greater Effort

Outside the boundaries of the United States, President Roosevelt's announcement is already having a valuable effect in democratic circles, for to the hard pressed and the oppressed it has brought realization that talk is to be rapidly translated into cumulative action, that promises, stated or implied, are to be implemented with increasing acceleration and that a real all-out effort with the full power of public opinion behind it is to be the order of the day, with nothing left undone to hinder it.

Such realization, however, is not to be construed as an invitation to Canadians to rest on their oars in the prosecution of their share in the fight for the preservation of a democratic civilization. On the contrary, it should be an incentive to bend lower to the oars, to renew the burden with increased vigor and to marshal all the resources of men, money and materials to match a maximum effort.

With a full appreciation of the power and resources of the foe we are fighting should come an understanding that no matter how far the United States may go in the next few months or even years in assisting the combatting democracies, every last ounce of Canadian effort is needed to turn the scales of warfare in our favor.

With this knowledge and a full appreciation of the world wide aims of Nazism there will be no let up in the part that Canada is playing and must continue to play in the greatest and the most devastating conflict in all history.

SHE WAS MY FAVOURITE SOCIAL MENACE

"I thought I had a life-long victim when I dragged her down from socialite to social menace. Too much coffee and tea upset her—she became my best example of caffeine-nerves. Then she switched to Postum and soon after she started the thirty-day Postum test her irritability vanished. Once again she became the town's popular social leader and Caffeine-Nerves had lost another victim."

Some people, and all children should never drink coffee or tea. If upset nerves make you irritable, cause sleeplessness, headaches or indigestion, switch to delicious Postum. This wholesome beverage contains no caffeine, costs less per cup and is prepared instantly in the cup with no waste. Get Postum today from your grocer.

May Start A Fashion

English Viscount Says Winston Churchill Has Taken To Snuff

Most photographs of Winston Churchill show him smoking a cigar, says Viscount Castlerosse, but nevertheless he is nothing like such a heavy smoker as his great friend the late Lord Birkenhead, who at 7:30 a.m. used to light a strong Havana cigar and enjoy it. Mr. Churchill does not usually smoke before lunch.

Lately he has taken to snuff, which may or may not start a fashion which has well-nigh died out. T. P. O'Connor used to sniff snuff, and years ago the Beefsteak Club stocked snuff for members.

Twenty-five years ago Lord Beaverbrook used to smoke cigars, then he took to cigarettes, now he does not smoke at all.

Hitler is a non-smoker and a non-drinker.

Home Defence Needed!

The Common House Fly Spreads Many Dangerous Infections

Every year we face an invasion—an enemy who strikes right into our very homes and is responsible for causing more serious ailments and even deaths than we ever imagine. This enemy arrives regularly every year with the first warm days. It is our duty to stamp out this menace to health and to life itself just as quickly as he appears from the manure heaps and rotting garbage where he has his breeding places. His name is known to us all—the common house fly!

Typhoid fever, the distressing summer diarrhoea of infants, and eye diseases are just a few of the many dangerous infections which the common house fly may spread throughout your community. Its hairy body may carry as many as five million bacteria, and a female fly's offspring will multiply by the million in an amazingly short space of time if allowed to breed.

This enemy is too dangerous to risk using methods of exterminating him which are not completely certain. Of the several methods used some are only temporarily effective as they merely "knock" him out for the time being. Other methods prolong his agony, accompanied by unpleasant buzzing and distasteful struggles.

We must destroy our enemy but let's destroy him humanely as well as efficiently. Wilson's Fly Pads present the ideal solution to the problem. They're efficient, humane, and easy to handle.

Incidentally, Wilson's Fly Pads will kill whole colonies of ants, too. The simple directions are on the package.

Designs By Famous Artists

Britain To Use Them On Printed Cotton For Dresses

Smart women of Britain will soon be able to wear cotton frocks with printed designs which are the work of famous artists. Graham Sutherland, one of whose wartime jobs has been painting fires during raids for government department is among them. Others are Duncan Grant and John Farleigh. Before the war British manufacturers relied largely on France for textile designs and the cotton board decided that to obtain future success in British export sales fresh ideas and color must be found. Artists and young designers were approached and an exhibition resulted, at which more than 1,000 designs were exhibited.

In spite of his Balkan victories, photographs of Hitler show him looking as sour as ever. Probably this is the result of getting up, morning after morning, on the wrong side of the Channel.

The largest postcard ever handled by the Salt Lake City postoffice was sent by the Utah Writers' Project. It measured 44 by 28 inches and 45 three-cent stamps were required to mail it.

Squirrels hoard nuts, but few remember where they hide them. As a result whole forests spring up from unintentional plantings of provident squirrels.

The richest single oil field ever discovered lies in Iran. 2415

BUY WITH YOUR EYES OPEN

Only **GYPROC** Fireproof WALLBOARD
(Made From Gypsum Rock)

Combines All These Advantages:

1. Lifetime Beauty with GYPROC

No need to ever worry about walls and ceilings cracking—warping or sagging—when you build them with Gyproc Wallboard. Guard against expensive repairs by demanding Gyproc when you build or remodel.

Note: Ordinary wallboards cannot guarantee this permanence.

2. Double Fire Protection with GYPROC

GYPROC Fireproof WALLBOARD is made from rock and will not burn. Equally important, GYPROC is a protective shield that prevents any ordinary fire from spreading. It pays to demand the double safety of Gyproc for your home.

Note: Many types of wallboard are not fireproof.

3. Unlimited Choice in Decoration, with GYPROC

Only GYPROC WALLBOARD has the four bevelled edges, which permit joints to be filled flush, giving you perfectly smooth walls and ceilings. That's why only with GYPROC WALLBOARD can you have any style of decoration you want.

Note: Flush, seamless walls and ceilings cannot be obtained with ordinary wallboards, so that your choice of decorative treatment is limited.

TO IDENTIFY GENUINE GYPROC

1. Look for the name GYPROC on the back of every board.
2. Look for the Green Stripe on both side edges.

Gyproc is sold everywhere in Canada by Lumber & Builders' Supply Dealers

FREE SAMPLE and Illustrated Booklet will be mailed on request to Gyproc, 50 Maitland St., Toronto.

Radio Battle In Which British Experts Sift The News From Axis Countries

The battle of the airways, unspectacular but nonetheless vital to the outcome of the war, goes on ceaselessly in wartime Europe. From the Axis countries alone emanate daily more than 1,000,000 words of propaganda.

One of the biggest jobs of the British Broadcasting Corporation now is listening to this flow of words through the ether. From the mass is picked a daily digest of 50,000 words of items considered significant and which may provide material for Britain's specialists in the analysis of enemy propaganda.

Hidden away at a reception station somewhere in England, the BBC monitoring services is on the job night and day. More than 100 men and women of a score of nationalities sit with headphones glued to their ears recording the broadcasts of 40 countries in 30 languages, including Berber and Albanian. The "report" is recorded mechanically and double-checked for accuracy.

Propaganda specialists sift the digest to reveal the inconsistencies of argument and supposed facts used in Axis propaganda. They are able to show—and the BBC demonstrates nightly in its Listening Post broadcast to North America—that what the Nazis say to the Americans may be vastly different from what they say to Britain, to France, to the Arabs and to India.

The monitoring staff includes a former member of the Austrian diplomatic corps, a Russian zoologist, experts in politics and economics, a Finnish sea captain and a Russian prince. It is upon the work of these monitors that the many government departments depend for much of their knowledge of what is going on all over the world.

The BBC has practically taken over a rural town in one of the most beautiful parts of England, and this wartime community is filled with all kinds of people doing all kinds of jobs. There is a hut for the Middle Eastern service, another where Indians prepare broadcasts for that vast sub-continent. The monitors occupy a couple and the editorial staff of the monitoring service has one that resembles the city room of a newspaper.

In a nearby mansion are offices and studios. In one studio Spanish nationals may be broadcasting a play to their country. On one floor news letters will be in the progress of preparation for Burma, the Malay States, Thai or Ceylon. A couple of miles away is another impressive

house where programs for Canada and the United States originate.

Britons moving about the shaded paths of the town are a common sight. So are the Indians in their flowing robes. There are Egyptians, Arabs, Greeks, Italians. One will meet Canadians and Americans. A turbaned Moroccan officer of the Free French army broadcasts news bulletins in an African dialect.

There have been smaller "invasions" in other parts of Britain. One of these took place at a seaside resort in the west country when the BBC took over two hotels. The rooms of one were converted into offices and the other into a hostel for the use of artists and other BBC employees.

Like the newspapermen covering the war on Britain's home front, BBC observers have gone into the "front lines" to describe for listeners in quieter areas aerial battles over Dover. During one broadcast from Dover a recording unit was machine-gunned by a German fighter plane. The raider was brought down by anti-aircraft fire.

The BBC staff has been dispersed widely so enemy action cannot interrupt entirely its varied activities. Likely as not, a girls' college, given up for the duration, may shelter a unit. It may be in a London theatre, to all appearances deserted. It may be a camp hidden in some wooded area.

On the bare stage of some theatre in which theatrical greats have played their parts, microphones may have been set up and a group of Canadian or Newfoundland soldiers may be taking part in a broadcast to North America. They play to an audience of empty seats and a few sleeping persons at the back of the auditorium—staff employees snatching some sleep before resuming work.

A significant change has been made in an old BBC custom. Formerly the announcer of a news program was anonymous. Now he gives his name before it is read. Wartime listeners at home must be able to recognize immediately the authentic voice of a British broadcaster—just in case.

Day and night, under almost incessant bombing, BBC programs have gone on the air without a halt in 34 languages, carrying to listeners abroad and at home Britain's position in the great conflict. Seventy-eight news bulletins with a total wordage of 250,000 are broadcast daily. Every day there are 85 hours of broadcasting time.

Ordinary Jimson Weed

Contains Unlimited Amount Of Atropine Used In Producing Digitals

Most digitals has come from Germany, where peasants have gathered the wild foxglove from which it is derived. Belladonna and the atropine it contains—the stuff the oculist uses to dilate pupils—is obtained from the deadly nightshade, an all too common plant in this country. The ordinary jimson weed could supply an unlimited amount of atropine if the gathering and extraction were made commercially feasible.

That jimson weed contains the drug in quantities was an accidental discovery. Investigation of the case of a farmer who had to be treated for atropine poisoning revealed that when he was pulling the weed he had stopped occasionally and used his bare hands to wipe sweat from around his eyes. The bulletin also recalls that belladonna was so named because women used to put it into their eyes to dilate the pupils—a commendable attempt to increase their beauty.—Cleveland Plain Dealer.

Bulletin in Scotch church: "Those in the habit of putting buttons instead of coins in the collection plate will please put in their own buttons and not buttons from the cushions on the pews."

Many "land girls" have been drafted for service measuring timber in the wartime forestry operations in Yorkshire, England.

Medical Research

Substance Extracted From Mushrooms Is Used To Reduce High Blood Pressure

A natural substance extracted from mushrooms has reduced high blood pressure in 95 per cent. of the patients on whom it has been tried, reports Dr. H. A. Schroeder of the Rockefeller Institute for Medical Research. However, it's no good if eaten but must be put directly into the bloodstream through a vein.

Just one more proof that this is an imperfect world. If things were properly arranged, extract of spinach is what would be injected to do what ever good it's supposed to do, while mushrooms for high blood pressure would be taken broiled in butter and spread thickly on porterhouse steak.—New York World-Telegram.

Hinged In Centre

Australian Has Invented Car That Bends In The Middle

A car that bends in the middle when turning corners has been invented in Australia. The car, which Cornelius Murmane, the inventor, claims can travel 60 miles on a gallon of gas, is hinged together in the centre and when the steering wheel is twisted the forepart of the chassis turns instead of only the front wheels.

Herbert Hoover says the United States is not prepared to go to war. Neither was Britain in 1939—but she went.

Has Important Place

Carrier Pigeon Can Still Be Depended On In War Time

The British Government has caused all homing pigeons in the United Kingdom to be registered. Although means of communication have greatly advanced since the last war there is still a place for the carrier pigeon. Wires may be destroyed and wireless messages may be tapped or jammed by the enemy. A carrier pigeon will valiantly as well as instinctively continue its flight to its customary loft or literally die in the attempt. There is in a military museum in London a stuffed pigeon with a wound in its side which delivered an important message between the front line and headquarters in the rear. The bird must have made a supreme effort to perform its task, for it expired immediately after landing. To-day, it has a place of honor among the military relics of Britain. There is a parallel case in United States records of the last war, when one pigeon was even posthumously awarded a military decoration for bravery.

Up until about the time of the First World War many newspaper reporters employed pigeons to convey reports to the offices. A reporter might be at some event several miles from a telegraph office. He wrote his report on flimsy paper, pushed it into a tiny tube which fitted under the bird's wing and sent it off on its errand, the pigeon loft being at the newspaper office. One Scottish paper which published a football edition on Saturday evenings had nearly all its copy sent by that means from football grounds all over the country.

These birds are intelligent, as well as acting by instinct, and they are easily trained. A good pigeon can fly at about a mile a minute, so that the service is faster than a train, and is from door to door.—St. Thomas Times-Journal.

Agricultural Implements

Some Made From Special Design Supplied By Great Britain

Plows made to a special design for Turkey were among the agricultural implements sent out from Great Britain overseas last year. South Africa, and particularly Rhodesia, had a wide range of higher class manufactures. Burma, India and Egypt took cheaper wares. Cultivators of the latter countries were actually using, a century and a half ago, plows identical with those handled by their ancestors two thousand years before. It was Britain who introduced to these and other lands of primitive agriculture the first light (32 lb.) steel-sharred plows. The makers catering for the poorest of native cultivators, made as well disc plows weighing 3½ tons.

Farming In France

Despatches from Paris quoted a German economics expert, a Dr. Schnoek, as saying, "The French concept of farming has to be revised. The French countryside was satisfied with production for exchange; future emphasis must be placed on production itself."

Salvage Activities Now Enable Every Canadian To Aid In War Effort

Radio And Cinema

Could Be Of Great Value In The Education Of The Public

Dr. James S. Thomson, president of the University of Saskatchewan, Saskatoon, said in an address at the third annual meeting of the Canadian Association for Adult Education that failure of the people to make use of the immense available technical equipment is largely responsible for present world troubles.

Dr. Thomson said that two technical items which could be of great educational significance are radio and cinema. Both had a profound effect on the public mind because they were almost ideal instruments of education.

A member of the board of governors of the Canadian Broadcasting Corporation, Dr. Thomson said radio and films appeal to the emotions through the imagination and educationists should realize that in these agencies there lies an opportunity of unmeasurable proportions to direct the public mind.

He suggested three steps which might be taken for the greater good of mankind:

1. Radio authorities might adopt a bolder policy in throwing open broadcasting systems for discussion of great public questions.
2. A wide conception of education through dramatized presentations of life and new radio techniques.
3. A follow-up for the education through radio by organizing listening groups, discussion groups and libraries to supplement the radio programs.

Some Typical Cartoons

Two Show What French Are Thinking About Food Restrictions

Frenchmen are wielding their sharp wit against food restrictions, which is about all they are allowed to attack in their present circumstances.

Satiric political weekly sheets, once the pace-setters for humor, have disappeared, but their cartoonists go marching on in the daily press.

Typical is a cartoon of an artist showing a friend a painting he has just completed.

"Do you mean to tell me," the friend asks, eyeing a rich display of food on the canvas, "that you can do all that from memory?"

On the same order is the one about the young children saying: "Grandpa, tell us again about the indigestion you used to have five years ago.—C.P."

Wichita, Kas., has 1,800 more red-bud trees—thanks to members of the Girl Scouts. With that number of trees donated by a nursery owner, 1,400 girls participated in a one-day planting throughout the city.

Be First to Wear This Easily Crocheted Jewelry

PATTERN 6968

Quick to make—inexpensive—light to wear, this crocheted jewelry will accent all your summer costumes! The leaf necklace and lapel pin are in gimp—the pom-pom necklace and a bracelet in wool. Pattern 6968 contains directions for making jewelry shown; illustrations of it and stitches; materials needed.

To obtain this pattern send 20 cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Avenue E., Winnipeg, Man.

There is no Alice Brooks pattern book published.

Well, have you heard what your airplane did to-day? Did it fight off the Messerschmidts over the Channel, or was it on a bombing foray to Berlin? Or perhaps it is a mobile kitchen you have sent off to war. What is it doing in the Battle of Britain? Was it down serving tea and hot food to the gallant fire fighters in the London dock area?

But pardon me, I forgot that it was an ambulance that you sent to aid democracy. Did you hear what it was doing to-day? Was it swishing over the sands near Sallum, taking casualties back to base hospitals? Or was it standing by while the bombs were whistling down on Liverpool, ready to snap into motion and rescue civilians caught in the Nazi barbarism?

Does all this sound a little fantastic? If it does, then you are not yet initiated into a new aspect of modern "total" war.

"Total" war is a new term in the history of the world. It is certainly a new term in the experience of millions of Canadians. But they have not been long in discovering its meaning. According to figures released by the Department of Finance, "total" war means that between 35 and 40 per cent. of the national income goes into the war effort.

Raised the painful way, taxation, the average Canadian begins to be aware of war. He is hit in the purse pocket. Of course, he can't do anything about it—except grin cheerfully, and dig cheerfully, and dig more deeply! Which he does.

Inspired by this brave response from the Canadian public, the Government is making it possible for the average Canadian on the home front to participate a little more directly in the war effort. And a little more romantically, if the term may be used about war.

Here and there all across Canada small groups, large organizations, and cities, are raising money through salvage activity for war purposes. Some of this money is given to war charities. Some is being turned over to the Department of National Defence for direct war uses. It purchases an airplane, or a mobile kitchen, or an ambulance, or some other piece of war equipment. Until recent date that was the end of the matter.

But now the Government has hit upon the bright idea of keeping the group or organization apprised of what is happening to the equipment it has donated to the cause.

This is a splendid thing. The Wellington bomber, Spitfire, ambulance, or mobile kitchen in which you have a share, will be right in there at the fight. And you will get regular reports on what your contribution has accomplished.

"Total" war is once more brought home in all its realism. Salvage activity which enables every Canadian man and woman and child to participate in the war effort, raises funds for combat equipment. It is your combat equipment. You will be able to say "I have directly helped to fight this war—and win it!"

His Only Objection

Daniel Webster Had Unusual View About Law Suit

Daniel Webster was once sued by his butcher for a bill he had failed to pay. One day, before the suit was settled, he met the storekeeper in the street, and to the man's great embarrassment, asked why he had ceased sending his helper around for the Webster order.

"Why, Mr. Webster," said the butcher, "I didn't think you'd want to deal with me after I'd brought suit against you."

"Tut! tut!" said Mr. Webster, "sue me for all you wish, but for Heavens sake don't try to starve me to death!"

The Age Of Wisdom

A woman has arrived at true wisdom when she has learned to put a No. 5 foot in a No. 6 shoe. The trouble with the average woman is that she thinks it the height of wisdom to put a No. 6 foot into a No. 5 shoe.

The World of Wheat

By H. G. L. STRANGE

Mustard plants are bad weeds. The roots of the mustard are much more extensive than the roots of the wheat plant. The mustard plant never grows very high above the ground, and so its destruction is often neglected, but if farmers could see its great mass of roots going down five feet or more, and could see the vast quantity of precious moisture that a single mustard plant consumes, they would not rest until mustard was eliminated from their farms.

A good summerfallow will induce most of the mustard seeds in the top three inches of soil to germinate and grow, and then the plants can be cul-

tivated and destroyed, but we must not forget the seeds that are in the bottom three inches and that cannot be killed until the land is again plowed and these seeds brought up near the surface to germinate.

It takes, therefore, two good summerfallows, with a crop in between, to destroy all the mustard seeds in the top six inches of soil. The important thing is to stop the plants from setting to seed, for each single plant may scatter over one hundred living seeds.

In recent years the chemical cyanamid, applied as a dust, has been found to be most effective for destroying mustard.

Following factors have tended to

raise price: My estimate of India's wheat crop down 10 million bushels from April; Mexico's wheat acreage and estimated production below 1940; rust, insect damage and flooding are reported from many sections of U. S. winter wheat area; in Europe farm work has been disrupted by unfavorable weather and insufficient labor and equipment.

Following factors have tended to raise price: May estimate of India's prospects for the grain crops in U. S. northwest are unusually favorable; Canadian spring wheat prospects are very favorable; weather conditions have been very favorable recently in Argentina for seeding; the Union of South Africa has established fixed standards for making of bread to conserve wheat supplies.

**INSTALMENTS**

You can buy your Victory Bonds by instalments—ten percent down; the rest on easy terms over six months. Pledge your credit and buy all the Victory Bonds you can on the instalment plan. When you have paid for them, your dollars will be earning a good interest return. Your canvasser, bank, trust company or Victory Loan Headquarters will explain and take your order.

HELP TO KEEP THE "FRONT LINE" AWAY FROM YOUR DOORSTEP

Urge Your Menfolk to Buy Victory Bonds NOW

You can no longer depend upon the Atlantic Ocean for protection. Any day between breakfast time and noon, a bombing plane can fly from Greenland to our own Maritimes and Quebec—a mere matter of 5 hours; to Winnipeg in less than 9 hours, to Vancouver in 10½ hours. From German-occupied France, bomb-laden planes can carry destruction to Toronto, Niagara, Ottawa and Montreal in less than 10 hours. Night and day, in the British Isles and on the sea, in and out of uniform, men defend your home from attack as surely as though they stood and fought at your own doorstep. Will you help to supply them with tools to carry on the fight—your fight? Will you help to make certain that there shall never be an "occupied" Canada?

Your Government needs some of your savings to buy more ships, planes and tanks—munitions of war that will hurry the return of our men to their homes, insure our way of life. Lend your money by buying Victory Bonds NOW!

The money you invest in Victory Bonds will come back to you with interest. Lend your money. We must win this war. Lend to preserve the things that money cannot buy. Urge your menfolk to protect your home by investing in Victory Bonds now. All that you hold dear is threatened.

HOW TO BUY

Give your order to the canvasser who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Bonds may be bought in denominations of \$50, \$100, \$500, \$1000 and larger. Canvasser, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.

Rugby Notes

With an attendance of 21, the W.I. meeting was held at the home of Mrs. D. Ward. We were glad to receive a visit from the constituency convenor this month and arrangements were made for the constituency conference to be held at the Rugby Hall in late July. Another quilt has been finished for refugee aid. Mrs. A. Hogg gave us a report on the recent W.I. convention. The July meeting will be held at the home of the secretary in the form of a social afternoon.

You can buy Sisman's solid leather work shoes for \$2.75 at Scott's.

Burnside Notes

Mr. and Mrs. Chris Ehret and Aylmer, Mrs. Stanley Coyne and Mrs. N. Eckel spent Thursday in Calgary.

Mrs. Otto Bittner, Olwen and Bobby, and Mrs. Alfie Thompson spent Monday afternoon at the Eckel home.

Miss E. Jackson of Olds is visiting Mr. and Mrs. A. Jenkins.

Mr. and Mrs. Fred Pregitzer of Calgary spent Sunday at their respective homes here.

Mr. and Mrs. Chris Ehret spent Sunday evening at Mr. and Mrs. Otto Bittner's.

Mrs. E. F. Anderson of Calgary is visiting her sons, Albert and Harold Davidson and Mrs. Davidson here.

Mr. Chas. Mardon Junior spent Sunday evening with Harold Thompson.

The June meeting of the Lone Pine W.I. was held at the home of Mrs. E. Hughes with a good attendance of members and visitors. Mrs. B. Woods won the contest put on by Mrs. Bert Pross, Mrs. E. Richardson won the 10c draw and Miss Margery Pross won the War Savings Certificate.

Farm For Sale

N.W. 6 and S.W. 7 31-1-W5

Tenders marked 39031 addressed to the Clerk of the Court, Court House, Calgary, will be received up to 11:00 o'clock in the forenoon of Saturday, the 12th day of July, 1941 for the purchase of the above property.

Location:

1 1/2 miles from Didsbury. Railway Station, Post Office, Church, School, Creamery and Elevators.

Soil:

Sandy black loam, 6 to 8 inches deep, on clay and gravel subsoil.

Improvements:

Frame house 24 x 24 with additions 12 x 16 and 6 x 16. Frame barn 40 by 50. Frame Pump house 10 x 12. Frame garage 18 x 24, hog house 30 x 24, and henhouse 14 x 16. Drilled well and dug well in coulee—plenty of water.

229 acres of good arable land, 10 acres good for pasture and hay, and 70 acres taken up by coulee.

Terms of Sale: 5% with tender, 20% on acceptance of tender, 25% in one year, 25% in two years and the balance in three years, from date of acceptance of tender, such payments to bear interest at 6%, or all cash at the option of the purchaser.

In all other respects the standing conditions of sale will apply.

The lands are leased to L. I. Klein, the lease expiring on the first day of March, 1944, and the sale is subject to the said lease.

Tenders must be accompanied by marked cheque for 5 per cent of the offer, which will be returned in the event of non-acceptance. No tender necessarily accepted. Envelopes to be marked "Tender".

For further particulars apply to Macleod and Edmanson, Solicitors, 63 Canada Life Building, Calgary, Alberta.

Dated at Calgary, Alberta, this 24th day of February, 1941.

J. H. CHARMAN

Acting Clerk of the Court.

Approved:

T. M. TWEEDIE,

J.S.C.

Red Cross Notes

A large quantity of raw wool is now on hand for making of comforters. There is also a stock of patches for making quilt covers on hand at the Red Cross room. Country groups who are desirous of making quilts should get their requirements now.

Lone Pine Notes

Gunner Lloyd Cipperley of Debert arrived home this weekend to spend his leave with his parents, Mr. and Mrs. C. L. Cipperley. He was accompanied from Calgary by his brother Cecil and his family who spent Sunday here.

Mr. Stanley Coyne who enlisted as a mechanic, left his home here on Thursday last and went to Calgary.

Don't forget the picnic and dance at the Lone Pine Hall June 27th. There will be good ball games and races and a good time is assured at the dance.

L. A. C. Lewis Spragg of R. C. A. F. who is now stationed at Lethbridge, has had his first solo flight.

GROWN IN SUNNY, SOUTHERN ONTARIO

A Continuous Effort

The campaign recently launched and prosecuted with considerable vigor in cities, towns and villages and throughout the countryside to salvage waste materials which can be converted into munitions of war or used indirectly for war purposes will rank as one of the many valuable contributions which Canadians have made and are making in the all-out fight to give Nazism a knock out blow.

With the completion of the first onslaught on hordes of hidden but useless treasures—useless to those who have been harboring them, it will be found that thousands and thousands of tons of materials which could not possibly serve any useful purpose stored in attics and basements and lying in waste heaps have been recovered and made use of as an aid to the greatest objective in Canadian history—the defeat of Hitler and concurrently the preservation of freedom and liberty.

A careful appraisal of materials which can be of value in the war effort reveals an astonishing variety and range of commodities which have been regarded as debris in industrial life, such things as bottles, rags of all kinds, old socks, old clothing and many other materials and discarded articles, which can be rehabilitated and made to serve a useful purpose.

Woolen rags undergo a transformation that is hard to believe. After this type of rags reaches industry, through the voluntary salvage groups, the transformation begins. They are thoroughly cleaned, sterilized and then shredded. The shredded material is next mixed with live wool and the combination is woven into several kinds of heavy cloth which makes blankets and uniforms, so essential to the comfort and needs of the armed forces. Collecting wool rags and turning them back into industry is definitely a direct contribution to the war effort.

Nor are cotton rags less valuable to the cause which the people of Canada are espousing. White or colored, cotton rags find their way finally to factories which make "waste" for machinery wipers. An old house-dress, which seems of so little use, if contributed to the local salvage campaign may eventually be used to wipe the oil and grease from a lathe that is turning out a bomb to be dropped on Berlin.

Other Textiles Valuable

Other types of secondary textiles can be used in the war effort. Linens, for example, are being turned back to industry to make the fine grade of paper needed for important military and state documents. Even old silk stockings may be turned to good purpose, as is now being done in the United States, where they are unwoven and the threads that still have tensile strength are being used a second time, a possible use which is now being investigated by the Canadian department of national war services.

Jute sacks are still another type of secondary textile having salvage value. Owing to the slow delivery of jute from India and the problem of getting shipping space, there has been difficulty in supplying the needs of the Canadian market with new bags. As a result, second hand jute bags have appreciable value.

The value of old machinery and metallic waste in other forms, such as discarded iron, steel and other metals is almost too well known to need comment. They can be reconditioned and processed for use in the manufacture of munitions and other forms of war material and equipment.

In a country which consumes large quantities of canned goods, it seems unfortunate that the salvage of tin cans is not an economic feasibility, at least, at the present time, and especially in view of the fact that tin is one of the most valuable of war materials.

Some time ago the Canadian department came to the conclusion that nothing could be done to make use of discarded tin cans, due largely to the cost of transportation over long distances and the expense of processing before the old cans can be turned into a useful material. Even in the United States, where conditions are much more favorable for collecting and converting tin cans into useful material than in Canada, it has been found impracticable to do so, after experimentation in de-tinning factories in New York, Chicago and San Francisco. A committee of the National Academy of Sciences in the United States has regrettably recommended against the establishment of more such factories "unless and until an emergency in the supply of tin renders it imperative to conserve tin without regard to its cost."

An Accelerating Need

The work that has been done to date is undoubtedly of untold value to the Canadian war effort, but after the first enthusiasm has worn off, the effort should not be allowed to languish. On the contrary the collection of salvageable material should be a continuous process, not only because there will be less of it available, once the first great accumulation of years of waste material has been disposed of, but because the need for it may accelerate as the war progresses and becomes more protracted.

Citizens can continue to serve their country well and further promote the war effort if, from now on, everything that could possibly be of use is set aside, sorted out in the process of laying it up for future use and held until sufficient materials are available to make delivery worth while or until the call again goes out for more waste.

"I WANT TO TELL EVERYBODY HOW GOOD ALL-BRAN IS TO RELIEVE CONSTIPATION"

"For 13 years I had suffered from constipation, trying all kinds of remedies without any hope of cure. Then I started eating KELLOGG'S ALL-BRAN regularly . . . with marvelous results. I wish I could tell all people who are suffering from constipation how good ALL-BRAN is to relieve it!" So writes Mrs. Paul Giersey, Joliette, Quebec.

If you have been dosing yourself with harsh cathartics, try ALL-BRAN's "Better Way". Eat it every day and drink plenty of water. But remember this crisp, delicious cereal doesn't work like purgatives . . . it takes time—Get ALL-BRAN at your grocer's, in two convenient sizes, or in individual serving packages at restaurants. Made by Kellogg's in London, Canada.

Air Force Radio Mechanics

Western Canada Took The Lead In Enlistments

Figures given by Canada's air minister, Hon. C. G. Power, showed how western Canada took the lead in enlistments of air force radio mechanics when an urgent call came from Britain a few months ago for radio specialists.

The air ministry combed the whole country and soon obtained all available men with training. Then the call was issued on April 8 for 2,500 young men to train for the special radio work. Regina, Saskatoon, Edmonton and Calgary led all Canada in filling the initial quotas, and reports from all R.C.A.F. recruiting depots showed that by April 18 there had been 1,418 enlistments and 1,134 pending, a total of 2,552. In 10 days then the call was filled.

Actual figures obtained from the air minister showed that both Winnipeg and Vancouver achieved increases of 50 per cent. over the original quotas allotted to them. Winnipeg started with a quota of 200 on April 8, and two days later the recruiting report was \$9 enlisted and nine pending. But by April 18 the figures showed a big spurt, and there were 173 enlistments and 238 applications waiting. The authorities then raised Winnipeg's quota to 250 and on April 28 the standing was 205 enlistments 257 pending. Later the quota was raised to 300 and, as Mr. Power said, "we got them."

Vancouver started with a quota of 150 and in two days had enlisted 37 with 11 waiting. By April 18, the Vancouver standing was 102 enlisted and 15 waiting, rising by April 28 to 146 enlisted with 54 waiting. The quota was raised to 200 and it was filled by May 15.

In both Winnipeg and Vancouver heavy enlistments came from university undergraduates it was reported. The boys have already gone to temporary manning pools. The western points being the air school at Penhold, Alta. They move shortly to special courses at universities and after 13 weeks training they will go overseas for additional operational training and actual service. They start out as aircraftmen class 2 at \$1.30 a day, receive promotion at the end of the course to leading aircraftmen at \$1.50, and about five per cent. may qualify for commissions.

The air ministry will pay the university \$200 tuition for each radio volunteer and the classes to start shortly include 250 at the university of Manitoba, 80 at Saskatoon, 120 at Edmonton and 150 at U.B.C., Vancouver.

SELECTED RECIPES

PREMIUM PIE

- 1 cup diced cooked carrots
- 1 cup cooked lima beans
- 1 small onion, minced
- 2 cups diced cold beef
- 2 1/2 cups beef gravy
- Salt and pepper
- Premium soda crackers

Heat vegetables and put in a greased hot casserole. Add onion and diced beef to gravy and heat. Season to taste. Turn out over vegetables. Cover with buttered Premium soda crackers and place under low broiler heat until crackers are a delicious brown. Serve immediately, allowing four crackers for each serving—covering generously with the beef mixture.

NOODLE-HAM CASSEROLE

- 1/2 pound fine noodles or macaroni
- 2 quarts water
- 1 tablespoon salt
- 2 tablespoons butter
- 1 tablespoon flour
- 2 cups stock
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 1/2 pound cooked ham
- 3/4 cup oven-popped rice cereal
- 1 tablespoon melted butter
- Dash paprika

Cook noodles in boiling water to which salt has been added. Drain. Melt butter in saucepan, add flour and stock, which may be made by dissolving two bouillon cubes in two cups boiling water. Stir until thickened. Add salt and pepper. Dice ham and mix with noodles. Add thickened stock. Pour into casserole. Crush oven-popped rice cereal over top. Sprinkle with melted butter. Add paprika. Bake in moderately hot oven 20 minutes.

Yield: Six servings.

The Port of London in normal times does an annual overseas trade valued at more than \$2,000,000,000.

Ever thought of it? The night falls but it doesn't break and day breaks but it never falls. 2413

**Need For
Continued Savings**

OTTAWA, Ont.—Recognizing the need for continued saving throughout the summer months, the Dominion War Savings Committee have appealed to students attending schools throughout Canada to keep up their regular purchases of war savings certificates during their vacation. The appeal was addressed to principals and teachers with the request that they obtain signed pledges from their students, pledges which state that the student will "do his best" to purchase war savings certificates during July and August.

Special war savings folders have been prepared and these will be distributed among the students before they quit school. Like the regular folders, space has been provided so that sixteen war savings stamps may be affixed for the purchase of one five dollar war savings certificate.

"Every school pupil in Canada, no matter how young, has a certain share in Canada's war effort. Each can exert his or her share of the power that makes for victory. There is no unimportant person in Canada today," W. H. Somerville, joint national chairman of the War Savings Committee, said in a message to teachers.

SEEDTIME and HARVEST
By Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association

Summerfallow
It is a noteworthy fact that even in the weediest districts, some farms are clean. On May 29, I took a short drive through a district north of Winnipeg. Very heavy infestations of sow thistle, blue lettuce, leafy spurge, quack grass, stinkweed and a variety of annuals were prominent. However, there were two farms on which scarcely a weed was to be found, and the owners or operators were not just lucky.

If a farm is clean, weed-free seed must have been used, and wise tillage practices followed. Wise tillage practices include timely and thorough fall and spring cultivation and careful summerfallowing.

At this time of year weeds grow very rapidly. Delayed operations often lead to plowing under a new crop of weed seeds—a dangerous form of insanity. If the summer-fallow is to be plowed, it should either be plowed early or surface-tilled in May and early June. "Plowless" fallows must be tilled often enough to prevent annual weeds from setting seed.

There are many farms in the prairie provinces so infested with perennial weeds that eradication would cost more than the land is now worth. If we are not careful, there will be many more.

Weeds delivered to any grain buyer of the line elevator companies sponsoring this Agricultural Department will be forwarded to us for identification. Specimens may also be sent to Dominion Experimental Stations or Provincial Departments of Agriculture.

AGRICULTURAL REPORT No. 3
For period ending June 9th, 1941.

Issued by the direction of Hon. D. B. MacMillan, Minister of Agriculture.

GENERAL—There are two distinct districts in Alberta at this time, according to crop conditions.

South of a line drawn across the Province from Wetaskiwin to Wainwright general conditions are good, but north of this line rain is needed badly to maintain growth of crops and to provide sufficient moisture to sow the remaining coarse grains.

The Peace River district is generally good but additional rain is needed soon to provide reserves of moisture that have disappeared rapidly through high winds and dry weather.

In the southern part of the Province many districts report from one to over two inches of rain. This precipitation has revived both crops and pastures. Wind damaged crops are recovering rapidly but tend to be weedy and summerfallowing is held up in some localities allowing weeds to gain the upper hand.

The dry section of the Province needs rain badly. Crops are generally patchy and farmers are waiting suitable moisture conditions before completing the seeding of coarse grains. Pastures are very bad although tame pastures are holding up much better

than native grass.

There is little or no damage to report this week.

Live stock are making faster growth and putting on flesh in the south as pasture conditions improve. Grass fattened cattle in some areas will be ready for market soon. Dairy production is reported to be on the increase in those districts where rain has improved pastures and poultry are making satisfactory progress. In the dry section of the Province the condition of live stock is only fair because pastures are not providing sufficient feed. In some areas, especially close to Edmonton, farmers have had to turn live stock into their hay crops as pastures would not sustain them. In the area west of Edmonton a light hay crop is now anticipated.

Dairy production is being maintained largely because of more milking cows and better feeding practices. Good rains to improve pastures would increase milk yield rapidly. Poultry conditions are satisfactory.

There have been no reports of damage to crops but caterpillars have defoliated trees in large sections of the Province north and west of Edmonton.

FEDERAL GRAIN LIMITED

Wheat Deliveries

Producers should carefully study the Government's 1941 Wheat Policy to determine which alternative will bring them the best returns.

It will be necessary for producers who wish to deliver their 1940 crop and collect farm storage to do so before August 1st, 1941, when the 1941 crop delivery quota becomes effective.

**MARCH WITH CANADA'S
CITIZEN ARMY!**

Fierce . . . resolute . . . fired with the spirit of patriotic endeavor, men and women throughout the length and breadth of the land welcome the VICTORY LOAN as a personal opportunity to "do something real" in the war.

Not with the battle dress and weapons of our gallant troops, but armed with dollars, the great citizen army has swung into action.

For all those who have dollars laid by or dollars to come, now is the time to re-dedicate their faith in the Empire's struggle, and to hasten the time of victory.

Turn your money into VICTORY BONDS . . . it works for the nation . . . working and earning for you, too. Remember, the appeal is not for a Gift, but for a Loan.

WORLD HAPPENINGS BRIEFLY TOLD

The Soviet government has withdrawn its diplomatic recognition of Greece.

Seven million oranges were unloaded at Liverpool from recently arrived ships and were allocated to various cities and towns throughout Britain.

Three fully equipped ambulances, representing the contribution of more than 1,000 Canadian seamen of the Great Lakes, were presented to the Royal Canadian Navy.

Mr. Justice C. D. Macaulay, judge of the Yukon territorial court, has retired after 39 years of service in the north, justice department officials said.

McGill University officials are studying the possibilities of a speed-up in medical training to meet a shortage of physicians, it was announced.

A year's renewal of a \$1,938,881 Dominion government loan to the British Columbia government is provided for in an order-in-council tabled in the House of Commons.

Several senators who sometimes differ widely on other policies have agreed that the United States defence effort might necessitate a lengthening of working hours.

One firm of contractors in Denham, England, found with gasoline "for purposes other than called for in the ration coupons" was fined £600 (\$2,670).

Travelling salesmen in Washington, Oregon and British Columbia who are members of the United Commercial Travellers have agreed to do their tipping in future in war and defence savings stamps.

Noted London Landmarks

List Of Those Damaged By Nazi Air Raids Grows

British authorities permitted the announcement that several noted London landmarks, including the Temple, Gray's Inn, Sergeant's Inn and St. Nicholas Cole Abbey had been damaged in recent German air-raids.

The Temple, heart of legal London, and Temple church, largest of the remaining round churches in England, suffered heavy damage.

The tomb of Oliver Goldsmith, in the churchyard, was battered by falling masonry but his statue had only a chip knocked from the tip of the nose.

Flames spreading through the church, whose round section was consecrated in 1185, burned for six or seven hours, melting the leaden roof and destroying stained glass windows.

The ancient masters' house of the Temple, damaged in a previous raid, was hit again, demolishing a reading room of the library and Inner Temple hall.

Flames spread from Inner Temple hall to the cloisters, Fig Tree court and Crown Office row, which contained the Charles Lamb memorial.

Six or eight statues of crusaders the Temple originally was the seat in England of the crusading order of Knights Templar were made unrecognizable by tons of falling masonry.

It was said authoritatively that half the Temple was destroyed.

Gray's Inn, fourth and last of the great Inns of court, to which many famed Elizabethans belonged, also was heavily damaged. The 16th century hall was destroyed and the library, with most of its 20,000 volumes, was burned out.

A relic of the first Great War—the remains of a German incendiary bomb which fell in the neighborhood—was lost, but a catalpa tree planted by Sir Walter Raleigh, was undamaged.

Just An Old Story

Nazis Use Same System On All Countries They Invade

Everywhere one turns one sees the Nazi system put into action; the propaganda, the infiltration of "tourists," the customary pretence of intervention to help some "oppressed" people to regain their freedom from British "tyranny." It is the same old story from the time of the betrayal of Norway to the present. Even Petain in his proclamation to the French people reveals himself as the mouthpiece of his Nazi masters. —Montreal Star.

BODICE NOVELTY IN SHIRT-FROCK

By Anne Adams

The shirtwaister plays a return engagement season after season in the smart woman's wardrobe. Here it is in a new and strictly 1941 version by Anne Adams Pattern 4746. The bodice is delectably, knowingly planned to do away with bustline problems. Notice the deep curve of the yokes as they meet the centre bodice panels; the concealing gathers in the soft-out side sections. This treatment, together with the tailored, notched collar and the buttoning to the waist, makes the eye travel up and down rather than across. Even the skirt joins in the slenderizing work with front and back panels. Though just short sleeves are sketched, a long sleeve version is included in this becoming, wearable style.

Pattern 4746 is available in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 3 1/4 yards 35 inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept. Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg, Man.

Honor For McNaughton

Lt.-Gen. A. G. L. McNaughton, commander of the Canadian corps in Britain, was elected an honorary fellow of the Royal Society of Canada at the opening of its annual meeting at Queen's University, Kingston, Ont. General McNaughton was president of the National Research Council for many years.

New Use For Coffee

Scientists visiting Brazil have found a new use for surplus coffee. Lord Forbes, a member of the Willingdon mission to South America, reported on his return to London recently that from the coffee beans a plastic material was being made which could be used to make airplane and car components.

In an electrical storm a person directly under a thundercloud is in 15 times as much danger of being struck if he is standing as he is if he lies on the ground.

Ancient Mayans of Central and South America used to decorate their teeth.

VICTORY LOAN 1941

Just Two More Targets

Famous Sales Rooms And Another Historic Church In Ruins

Christie's sale rooms, in St. James's London, art centre of the world, received a direct hit from Nazi bombs and were fired. The great wide staircase, trodden by Royalty, was destroyed. Sir Alec Martin, a director, said: "Christie's have a tradition of nearly 200 years to maintain, and we shall carry on."

Chelsea Old Church, scene of many fashionable London weddings, is a mass of ruins after a direct hit. It contained the tomb of Sir Thomas More, Lord Chancellor and author of "Utopia," many ancient monuments, and some chained books, including a "Vinegar Bible."

Admitted To United States

Famous Russian Born Scientist Escapes From France

Dr. Serge Voronoff, Russian-born scientist, and his wife were formally admitted to the United States for permanent residence. Voronoff, who achieved fame through his monkey gland experiments, arrived in Canada with his wife to await his number under the United States Immigration Department's Russian quota. The scientist left Europe after his laboratories at Mentone, France, were lost when the Germans broke through into France last year.

Must Give Nazis Room

Because an "insouciant" little Fontainebleau boy made a "croque a jambe" stuck his foot out and tripped a German soldier, all citizens of Fontainebleau are compelled to step into the gutter when a Nazi approaches them on the sidewalk.

Canadian-made army vehicles are serving British forces in many parts of the world—Britain, Egypt, the Near East, Australia, South Africa.

Experiment Interesting

Scientists Find Negro Vision In Dark Better Than Whites

Evidence that negroes can see better than white men at night was carried to Washington by two scientists who have been conducting vision tests with selective service draftees at Fort Bragg, N.C. One of the scientists, Dr. H. de Sylva of the Yale University Driver Research centre, described the discovery as "the most startling find since we entered the field" of night vision.

Dr. de Sylva and Dr. W. M. Miles, vision expert of the National Research Council, will present their findings to Col. David Grant, chief medical officer of the army air corps. Dr. de Sylva began the vision tests, in connection with a truck-driving school for soldiers at the fort. After 4,000 to 5,000 men were examined, he concluded that negroes had better night sight than whites. He then called Dr. Miles to confirm his discovery—with "startling results."

Dr. Miles picked at random seven whites and eight negro selectees. He lined up the selectees on a night-blackened field, and told them to look at a point 100 feet away, where a stick had been placed.

On each end of the stick was a square of white cardboard, and the soldiers were asked whether the stick was in a horizontal or vertical position. The negroes could see the cards, but the whites could not. Most of the whites had to approach to within 50 feet—one-half the distance—before they made out the cards. That would indicate that the negroes as a whole could see twice as well at night as the white men.

Easily Explained

One Reason Why Nazis Have Not Destroyed British Zoos

But the Germans are almost fearful in their angry protest against even the implication that they would bomb a zoo and injure any of the wild animals therein. A tenement house is a "military objective" to the Nazis. So is a hospital or a school. But a zoo? Ach Himmel, nein! Why is a zoo not a military objective? Elementary, my dear Ribbentrop! There are no women and children in the cages!

Motor Salesman: "Can I show you something, sir?"

Pedestrian: "No, I'm not here to buy anything. But it's such a wonderful change to be in the midst of all these cars without having to dodge them."

FAMOUS AVIATOR TO AID IN PRODUCING R.C.A.F. FILM

Squadron-Leader Owen Cathcart-Jones, left, of the R.C.A.F., chats with Hal B. Wallis, executive producer of Warner Bros. Pictures, about plans for the forthcoming film of an original story about the R.C.A.F. entitled "Shadows of Their Wings." Lt. Cathcart-Jones will serve as technical adviser of the picture and will collaborate on the script. Shooting will start near Ottawa this summer.

Squadron-Leader Owen Cathcart-Jones of the Royal Canadian Air Force has been designated as officer in charge during the filming of "Shadows of Their Wings" forthcoming Warner Brothers film of R.C.A.F. following arrangements completed by Hal B. Wallis, executive producer, and the Department of National Defence for Air of the Canadian Government. He will work directly with Wallis on the production.

In addition to serving as technical adviser on the picture, Lieutenant Cathcart-Jones will also collaborate on the script. The famous flyer has literary as well as aviation experience, having recently written "Aviation Memoirs."

Lieutenant Cathcart-Jones is the holder of numerous records, including the 72-minute flight from London to Paris and the 26,000-mile round trip between London and Melbourne, Australia.

Other exploits of the famous flyer include record flights from London-to-Cape Town, London-to-Kenya Colony and Malta-to-Cairo, first night landing on an aircraft carrier's deck, rescue from a forced landing in the Mediterranean by a destroyer, and the quelling of civil disturbances in China and Palestine. He is the holder of the Centenary Gold Medal and the Royal Aero Club Medal for Meritorious Long-Distance Flights.

Health
LEAGUE
of
CANADA
presents
TOPICS
of
VITAL
INTEREST

HEALTH EFFICIENCY

In connection with its campaign for increased health and efficiency as a part of the Dominion's war effort, the Health League of Canada points to what has been effected in Britain by the added insistence on public health measures.

Official figures from London, says the League, show that the general health of the people is higher to-day than it has been for several years, despite the appalling conditions under which they are forced to live.

There had been fear that damage to drains, as a result of bombing, might produce epidemics of typhoid in the large British cities. Actually, there was less typhoid in Britain during the early months of 1941 than in corresponding periods in 1939 and 1938, though the incidence remained about the same as in 1940.

The crowding of air raid shelters has not resulted in epidemics of sickness, to the contrary, communicable disease has decreased. In part, this result is attributed to the provision of medical service in the shelters, and to the avoidance of delay in the treatment of illness.

The Health League believes that greater attention to public health in Canada should be paid at this time, and that thousands of working hours now lost yearly could be saved by the elimination of preventable diseases.

SELECTED RECIPES

RHUBARB CRISP

1/2 cup butter or margarine
1/2 cup sugar
2 eggs
1/2 teaspoon nutmeg
1/2 teaspoon vanilla extract
1 1/2 cups small toasted bread cubes
2 cups corn flakes
4 cups diced fresh rhubarb
1/2 cup sugar

Blend butter and 1/2 cup sugar thoroughly; add eggs and beat well. Stir in nutmeg, flavouring, bread cubes and corn flakes. Place half of mixture in buttered baking dish; arrange rhubarb evenly over top and sprinkle with 1/2 cup sugar; cover with remaining creamed mixture. Bake in a moderate oven (375 degrees F.) about 35 minutes or until rhubarb is done.

Yield: Eight servings (8 1/2 inch casserole).

DEVILED LIMA BEANS

2 tablespoons butter
1 teaspoon salt
1 teaspoon prepared mustard
Paprika
7 Christie's Milk Lunch Biscuits (rolled fine)
1 1/2 cups milk
1 egg
2 teaspoons Worcestershire sauce
1 cup lima beans (cooked or canned)

Heat butter in saucepan. Add mixed salt, mustard, paprika, rolled waters and milk. Cook gently for 3 minutes. Add beaten egg, Worcestershire sauce and lima beans. Continue cooking for three minutes. Six portions.

Held Rose Week

The New York chapter of the Maple Leaf Fund, Canadian war relief organization held a Rose Week, during which 1,000,000 roses donated by florists were sold throughout the United States to provide comforts for British soldiers and civilians.

The best way to get rid of your duties is to discharge them.

LOOK OUT FOR YOUR LIVER

Buck it up right now
and feel like a million!

Your liver is the largest organ in your body and most important to your health. It pours out bile to digest food, gets rid of waste, supplies new energy, allows proper nourishment to reach your blood. When your liver gets out of order food decomposes in your intestines. You become constipated, stomach and kidneys can't work properly. You feel "rotten"—headache, backache, dizzy, dragged out all the time.

For over 35 years thousands have won prompt relief from these miseries—with Fruit-A-Tives. So can you now. Try Fruit-A-Tives—you'll be simply delighted how quickly you'll feel like a new person, happy and well again. 25c, 50c.

NO OTHER TIRE LIKE IT ! Firestone CHAMPION

LOWER PRICED FIRESTONE TIRES
In addition to the sensational new Champion tire, Firestone Dealers have three other lower priced tires—
HIGH SPEED, STANDARD, SENTINEL
No matter what price you want to pay for a tire, go to the nearest Firestone Dealer and see the bargains he has to save you money.

SAFETY-PROVED ON THE SPEEDWAY FOR YOUR PROTECTION ON THE HIGHWAY

FROM the innermost fibre to the sensational new Gear Grip Tread, everything in this smart, streamlined Firestone Champion tire is new and different. It sets up entirely new standards of safety and long mileage because it is the result of Firestone's quarter-century of experience in building tires for race track speeds.

Here are some of the things you get in Firestone Champion tires—new Safety-Lock cords treated with a new and advanced Gum-Dipping process; 27% stronger bond between tread and body; 35% greater heat protection against blowouts; an amazing new tread with thousands of sharp-edged angles for quick stops—a tread that gives 11% more non-skid mileage.

Not only is the Firestone Champion an engineering triumph but it is super-value as well—for, with all its extra value, it does not cost one cent more than ordinary tires. Have your nearby Firestone Dealer put them on today.

DAUGHTER OF DESTINY

—BY—
Eleanor Atterbury Colton

CHAPTER X.

"Sit down, please," Vara said coldly, indicating a little straight-backed chair.

Devona, obeyed, feeling as if she were a prisoner before the bar. Though why—what it could be that—Dully her mind went around and around searching for a key to this strange tight-lipped mood of Vara's.

Tapping a cigarette rhythmically against her thumb nail, Vara moved slowly to her chaise-longue and sat down, head flung back against the pillows as she lit the match and blew the first shafts of pale blue smoke carefully. Again, Devona had that feeling of waiting for a cue. Every act, every gesture measured, timed as if for an entrance.

Finally, Vara turned toward her with a gracefulness, a cool poise that made Devona feel awkward, too tall, too young—too everything that was gauche and out of place.

"I would much prefer," Vara be-

gan slowly, anger gone from her voice now, and replaced with infinite coldness, "that you didn't go swimming by moonlight at this hour—either alone or in the company of my guests."

Flushing, Devona bit her lip. "I'm sorry. It was such a perfect night and Dale—"

"Is a very charming young man, I'm aware of that," Vara lifted one eyebrow. "But, I'm afraid unconventional behavior will lay you open to criticism. And that wouldn't be quite fair to me, do you think?"

Miserably, Devona shook her head, murmured, "I'm sorry."

"I'm really surprised that with your training," her smile drew the sarcasm, "that you would be guilty of such things."

Hot tears swam into Devona's eyes and made the whole elaborate room wash together. "I didn't suppose there was any harm, I'm—sorry. It won't happen—again."

"No. We'll hope not," Vara crushed out her cigarette and clasped her hands behind her perfectly coiffed head. "And now that you're here, I want to discuss another little problem with you."

Devona, fingers clenched tight in her lap, met her mother's eyes levelly. "Another—problem?"

"Yes. The one concerning your—future."

"My future?"

"Because, of course, you can't stay on here, you know. You weren't planning that, were you?"

Devona felt the walls recede and then rush back at her. Not stay here? What did her mother mean? Vara was smiling now, that slow, careful smile. "I'm sorry to disappoint you, my dear, if you had. You see this is only a temporary home for me. In another month, we'll be opening our play in Hollywood for the trial run and then we'll take it on to New York. You see—it would be quite impossible for me to keep you with me indefinitely."

Puzzled, Devona tried to collect her wits. "I—really—hadn't thought much—"

"Then, I believe we'd better do some thinking at once," Vara went on, dryly. "There's an excellent girl's school just out of San Francisco. Specializes in music, I believe. I'll wire for details tomorrow and I think we can get you off before the end of the week. You might as well get started at once."

Devona gasped in spite of herself. "Tomorrow—the end of the week?"

"Yes, you've wasted enough time already. Your father—" her eyes changed subtly, "never was one to realize that life has to have definite

plan—purpose—if you are to achieve anything."

"Yes, of course,"

"And now, good night," Vara rose, closed the little interview with a cool nod. She brushed a kiss against Devona's cheek, a frosted little gesture that served only to remind the daughter what boundless chasm lay between herself and her mother.

"Good night," Devona echoed, automatically, her voice fading to a whisper.

"And remember," Vara stopped her just as she was closing the door behind her. "Please don't make a nuisance of yourself to Dale—or any of my guests."

Tear-choked, Devona shook her head, closed the door and escaped to her room across the hall.

For hours she lay huddled in the wide bed, staring into the darkness, her heart heavy with this new burden. She was unwelcome in her mother's house! That much was plain enough and, as she thought back over the reasons Vara had given, unwelcome because of something more than that she was in the way.

Dawn had slid fingers of light through the long, open windows before Devona dropped into restless, dream-tormented sleep. And when a fitful breeze loosened a window catch and flung it shut with a crash, she awoke with a start, a frightened scream on her lips.

"Only a window," she said aloud, and slipping out of bed, ran barefooted across the thick-piled carpet to refasten it.

As she stood, hidden by the heavy draperies, one slim arm reaching for the opened window catch, she saw someone cross the patio below. A stealthy some one who skirted the flagstoned paths, walked noiselessly on the green velvet lawn.

Wong, again! But now strangely different. His jaunty white panama replaced by a woollen cap. His flashy sport coat exchanged for dingy blue shirt and a torn sweater. Under his arm he carried a bundle wrapped in newspaper!

Through the murky half-light of early morning, Devona saw him hesitate under the palms lining the drive, dart quick glances toward the house, toward the very window where she stood now, frozen immobile. Then, as if he'd made sure no one saw him, he moved across the lawn below her window to a side door. An instant later that door closed soundlessly.

Heart hammering, Devona pulled a negligee over her nightgown, thrust her bare feet into soft-soled mules, opened her own door noiselessly and ran swiftly to the head of the servants' stairway. At the landing one flight below she saw Wong hesitate, stoop quickly to pull off heavy, mud-spattered shoes, then steal silently down the hall to the servants' quarters. A moment later a door closed softly.

Devona stood there a moment trying to think what to do. Tell Vara? But, after all, what was there to tell? A servant chooses to—

Behind her a door opened suddenly. Startled, Devona whirled, a scream rising to her lips. It was Dale—thrusting his arm into a dressing gown, his hair still awry, his eyes still sleep-filled.

"What's up?"

"Dale!" she gasped down a little laugh. "How you frightened me."

Dale came toward her with long strides. "But what are you doing trailing around the hall at this hour?"

"I just thought I heard something—a burglar and—it turned out to be Wong coming in. I I guess I'm just—nervous."

"I'm sorry," she sobbed. "I'm just—upset."

"Look here," One finger under her chin, he tipped her face up toward his. "Smile. A big one."

Devona managed a sort of lop-sided little rainbow one.

"That's better," he grinned. "And to-morrow we'll go for a long ride into the open spaces and clear up these jitters with a little desert sunshine. How about it?"

She nodded, still not trusting her voice.

"Good girl. Run along now," and with that he stooped, kissed her swiftly on the lips—a fleeting gesture that caught her heart, sent it racing again. But not before another door opened. Vara's this time.

Turning, Devona realized her mother must have seen that sweet little caress. Guiltily she drew free of Dale's encircling arm, faced her, aware of the angry accusation in Vara's eyes, aware too of the touch of Dale's mouth against hers. She felt her own cheeks scorch with embarrassment as she tried to draw the wispy negligee closer. It must look unconventional, as Vara would put it. And it had been so innocent.

But, Devona realized miserably, her mother wouldn't be convinced of that, probably. Not after having once warned her already to-night to stop "being a nuisance" to her guests.

"Well, Vara broke the silence finally, her silken voice drawing the word carelessly. "Am I interrupting something?"

Devona opened her lips to explain but no sound came. In the same instant she heard Dale saying, quietly:

"Devona thought she heard some one breaking into the house and came to investigate. I heard, either that or Devona herself. But it proved to be only one of the servants. Devona here," he smiled down at her again, had a little attack of the jitters. But she'll all right now, are you?"

Devona nodded, grateful for the bulwark of his calmness but perfectly sure that Vara didn't believe a word of what he'd said.

"I see." Her lovely lips curled a little and the warning was plain in those hard, gray eyes as she looked at Devona. "Well, run back to bed, Devona. It's still a hideously uncivilized hour."

"Yes, of course," Devona murmured, and I'm sorry to have disturbed every one. But I did see—"

"Never mind," Vara interrupted curtly. "You'll rouse the whole house. And I think we've had enough for one night."

The thrust went home with sharp-edged cruelty. Unwelcome here! If she'd needed further proof, Vara's twisting smile gave it to her then. Dully, Devona nodded, started down the hall to her own room.

(To Be Continued)

Defending Liberties

There Can Be No Neutrality Between Right And Wrong

"The only people who can break the morale of the British people are the people of America," Grove Patterson, editor of the Toledo, Ohio, Blade, told the convention of the Advertising Federation of America at Boston.

"Hitler and his legions can not destroy the morale of Great Britain," Patterson said. "But if Britons come to think that we have run out on them in the battle for a principle, of which we are the chief exemplar, that will break their hearts."

"With the English, we defend the liberties that a continent has lost. We advertise aid to Britain but we do not deliver the goods. There is no peace, indeed, there is no neutrality, between right and wrong."

Patterson talked to advertisers who at the opening of their convention received a message from President Roosevelt telling them that advertising "should play a leading part in the nation's preparedness program."

LEARN KNACK OF WRITING FRIEND-WINNING LETTERS

Put Warmth Into Your Notes

Getting a letter from some girls is an event! Every page brims with personality, friendly warmth. No wonder such a girl is first to be asked for visits, house parties, fun.

Yet writing good letters isn't an inborn talent. It's a knack that everybody can learn. If you get bogged down at the start of a letter try this simple trick.

Think what you'd say if you suddenly met the other person—then write it. "Dear Mary: What ages since we've had a good chat!"

And beware of giving a dull catalogue: "She had a shower . . . went for a swim . . . I bought a new hat." Better to select one or two incidents, giving more of your thoughts and feelings. And let out your vocabulary: "A heavenly swim! Water azure-blue and yours truly as happy as a mermaid!"

Even in notes to old friends correct form counts. To sign yourself "Sincerely, Ann" is neither grammatical nor courteous. Always remember to add the "yours" to words like "sincerely," "fondly."

Make a delightful impression in social and business letters, too, with the help of the pointers in our 32-page booklet. Gives sample letters for many occasions, tips on vocabulary, English and correct form.

Send 15 cents in coins for your copy of "Good Letter-Writing Made Easy" to Home Service Dept., Winnipeg Newspaper Union, 175 McEwen Ave. E., Winnipeg, Man.

India is the chief American source of mica, which is used for insulation purposes.

The Bank of England has its own church yard adjoining where many bank officials are buried.

GREYHOUND

*Canada
hits her
Stride!*

With grim determination this young and virile nation dons her armour, buckles on her sword. From coast to coast the tempo of Canada's war effort accelerates. Tanks, planes, shells, food-stuffs, and equipment of every kind are being massed for victory. Canada means business.

Personal sacrifice must match this national effort.

Yours is the duty of providing the dollars so vital to Canada's war needs. Yours is the duty to save. Invest in war savings certificates regularly. Build up your savings account. Save for victory.

THE ROYAL BANK OF CANADA

WAR SAVINGS PLEDGE FORMS AVAILABLE AT ALL BRANCHES
DIDSBURY (Alberta) BRANCH, F. DUNLOP, Manager

LOCAL & GENERAL

Mr. and Mrs. John Hislop were Calgary visitors over the weekend.

Miss Enith Hunsperger who had been visiting at her home here, returned to Edmonton on Wednesday.

Dance at Melvin July 1st. Music by "Kings of Rhythm"—new and old time music.

Ronald and Muriel Brightman of Calgary were visiting their home here over the weekend.

Rev. T. S. Williams, of Innisfail will take the service at St. Cyprian's Church on Sunday next at 3 pm

Mr. Jim McDougall of Calgary came up over the weekend to visit with Mrs. McDougall who is in the hospital here.

Mr. and Mrs. H. S. Beveridge and daughter are vacationing at Sylvan Lake for couple of weeks.

Mr. A. E. Bibbs of Vancouver visited with Mr. C. E. Reiber and called on other friends over the week end.

Mrs. G. A. Coulter, who has been visiting her aunt, Mrs. J. E. Gooder, returned home to Abbey, Sask., on Saturday.

Mr. and Mrs. Norman Clarke and Miss Minnie McNeil are holidaying at Banff, later they will go on to the coast.

Mrs. G. Riggins of Honolulu, is visiting for a couple of weeks with her parents, Mr. and Mrs. W. Archer. Mrs. Riggins visited San Francisco and Seattle enroute.

Miss Betty Barrett who is attending the Henderson's Business College in Calgary was home over the weekend.

Goldwyn Gabel received his call from the RCAF as a pilot observer, and after taking final examinations in Calgary on Monday, left Tuesday evening for the Brandon training pool.

Halliday's Grocery is the first store in town to install the new fluorescent lighting system. The beautiful white light which the new fixtures give has a daylight effect and has attracted considerable attention.

Mr. and Mrs. John Bode wish to announce the engagement of their only daughter, Violet Margaret, to Mr. Albert Prew, the only son of the late Mr. and Mrs. Albert Prew of Gloster, England. The wedding will take place the latter part of June.

Able Seaman Earnest E. Wackett of Esquimalt, B.C., spent Sunday visiting with his sister, Mrs. Russell Fulkert. After spending a 2 weeks vacation with his parents, Mr. and Mrs. R. E. Wackett of Olds, he will return to that same point for further training.

Kirby's Meat Market is taking on a citified appearance. Last week Mr. Kirby put in a new "Frigidare" showcase and installed a new lighting system. Some time ago he also installed one of the latest Berkel Meat Slicers. Jimmy says all this helps to give better service.

Irwin Klien brought in a pair of young ground hogs on Tuesday which he caught north-east of Innisfail. Together with Harold Oke and Harvey Hosegood, he had gone to that district to look over a tractor and found them while trying it out. These are the first ground hogs we know to have been caught here.

A well received number at the Concert Orchestra in aid of the Red Cross in Red Deer on Sunday evening, was a duet played by Jerry Winger on his piano accordion and Laurence Gabel on his electrically amplified Hawaiian guitar. This is probably the first time this instrument was heard publicly in Red Deer and the two instruments blended beautifully—Red Deer Advocate.

Didsbury Dairy is making an innovation and is introducing chocolate milk. Having received several requests, they will put on a trial delivery on Saturday and Sunday. Mr. Morris says that if the demand warrants, he will make deliveries daily. This product has become a favorite with both children and grown ups wherever it has been introduced.

REMEMBER!

Old Timer's Picnic
July 1st, 1941
